

Page 8, step seven should read triangles, not diamonds.

7. Arrange the star points and background triangles, as shown. Sew one background diamond to the upper right edge of the star point, and press that seam in towards the star point. Sew the other background diamond to the upper left edge of the start point, and press that seam out towards the background diamond.

Page 18, step three should read two, not four.

3. From the remainder of the black/orange strip sets, cut two $2\frac{1}{2}$ " triangles with black at the base and orange at the tip. Rotate the ruler, then using the triangle lines align the $2\frac{1}{2}$ " dashed line down the black edge of the strip and the flat tip of the ruler at the orange edge. Cut on both sides of the ruler, then slide the ruler down the strip to make the next cut. Cut two triangles like this.

Page 19, step four should read 2x, not 4x

4. From the assorted orange $2\frac{1}{2}$ " strips, cut a total of twenty-eight $2\frac{1}{2}$ " triangles. (Follow the cutting instructions in step 2 of the candy corn block for these cuts). You should have four different stacks of $2\frac{1}{2}$ " triangles: four with a 1" black tip and orange base, fourteen with a $1\frac{1}{2}$ " black tip and orange base, two with a $1\frac{1}{2}$ " orange tip and a black base and twenty-eight orange triangles.
